Our main office is located at Leslieville, Alberta and serves all of Alberta for over 30 years with general maintenance, construction and pipeline installations.

All of our company vehicles are telephone equipped and contain a complete line of tools to carry out work as requested.

We specialize in facility installations with journeyman pipe fitters and pipeline installation with experienced personnel. All foremen and labor personnel hold valid H2S, WHMIS, First Aid / CPR, CSTS, Confined Space Rescue and Ground Disturbance certificates.

We presently have:

- eighteen 1-ton tool trucks
- 4 ton, 7 ton, 14 ton, 15 ton and 30-ton truck mounted pickers
- three tractor / trailer units
- dump trucks and end dumps
- tractors with mowers
- post pounders
- rototillers
- trackhoes
- backhoes
- sidebooms
- cranes
- dozers
- 1 ton maintenance trucks
- two insulator service vehicles
- five bobcats with trailers and attachments

Western Metal Art by R. Pollitt

Plasma torch technology along with artistic talent have altered the way R. Pollitt Manufacturing works with metal.

Some of the items include Signs, Wall Murals, Coat Racks, Coat Hooks, Town Signs. Fire pits and Welcome Signs. We have a large variety of in stock images that can be further modified to fit your own particular taste. Bring or send a picture and we will recreate your own personal scene.

We do not use computer guided laser equipment. Each image is hand cut in our shop assuring you of a unique piece of art every time. Check out our Silhouettes section for a further selection of images.

Our team of companies represents the knowledge and resources needed to carry out pipeline integrity programs from the initial organizing stages through to the final backfill. By bringing the various aspects of integrity programs together under a single unit we can offer our customers greater organization and efficiency leading to superior service and results.

We are fully insured and committed to the highest standards of safety. Our team is here to provide the solutions you need to ensure effective maintenance program results.

Pollitt Construction has their "COR" (Certificate of Recognition) We believe that Health, Safety and the Environment should be the #1 core value at Pollitt Construction and in order to keep current on all mandatory safety certificates we have facilitated our own training centre.

All field employees are required to hold valid H2S, First Aid, WHMIS, TDG and CSTS certification and many more are trained in Ground Disturbance, Confined Space Entry, Fall Protection, Fleet Safety, Leadership for Safety Excellence and any other site specific training that may be required.

R. POLLITT MANUFACTURING & SALES

- develops many products for retail and rental

- Flare knockout tanks
- 100 barrel drain tanks
- separator packages
- flare stacks
- any special project

A 60' by 110' well equipped welding facility allows for year round fabrication of items. Our recycle program reduces waste material generated during the manufacture and fabrication processes.

We have ticketed pressure welders with portable units as well as structural welders.
